Mad Science Backyard Explorers
Fall Break Camp

Creepy, Crawling Creatures
Have you ever wondered how bugs defend themselves against predators? Get a birds-eye view of the insect world. Build a bug house so you can continue to explore the world of insects in your own backyard.
Take home project: Bug House

Reduce, Reuse, Recycle
Become a caretaker of the Earth and get a hands-on look at ways to help reduce our garbage, reuse what we cannot reduce and create ways to recycle! Discover how pollution and acid rain damage our planet and what we can do to help begin to fix these problems. Make your own recycled paper to take home.
Take home project: Recycled Paper

Owl-ology
Discover how owls live, how they adapt to their environment and what they eat for dinner! Conduct an owl pellet dissection and take home a tiny skeleton. Learn about birds of prey and how they survive.
Take home project: Mini Skeleton

Animals and Habitats
Uncover animal adaptations and learn how predator-prey relationships work. Discover how to track down an animal and use its "footprints" to learn more about how it lives. Make your own animal track to take home.
Take home project: Animal Track

Solar Science
How can the sun be used to produce energy to grow our food, heat our homes and even cook dinner? Discover the science behind solar energy in this fun, hands-on look at this renewable resource. Make your own solar cooker to take home.
Take home project: Sundial and Solar Cooker
